

Synergies - Decline of services in remote areas

([DEMOCHANGE](#), [ACCESS](#))

The projects work both on the decline of services of general interest in remote areas. [DEMOCHANGE](#) takes the demographic change in these areas (but not only this) as a starting point, while [ACCESS](#) addresses directly the accessibility of services and develops solutions for it. For [DEMOCHANGE](#) it is one topic out of several, for [ACCESS](#) the main topic. There are some pilot activities in [DEMOCHANGE](#), which address the topic of improving access to services of general interest (e.g. "More Mobility, local supply and social integration for elderly people").
