Results have been elaborated during the entire duration of the project.

Keywords

Inter-municipal Cooperation, Location Development, Alpine Space,

Accessibility

Open access to the guidelines (pdf) in the project website as well as WIKIAlps

Transferability and re-usability

This document gives theoretical and practical inputs on how municipalities can engage realize inter-municipal commercial location development, although in the main findings is acknowledged that there are no universally valid and easily transferable solutions. This requires to critically read and adapt methodologies and findings to specific conditions in other contexts, also considering the scope of cooperation and stakeholders involved.

Sector policies addressed

Spatial planning, infrastructure, business and industry, social service and housing, resource management
