Project summary

“Many EU funded projects have approached the topics of energy efficiency, a low-carbon economy and sustainable building within the last years. Platforms and networks on sustainable buildings have been launched, many pilot activities have been conducted successfully and valuable know-how has been accumulated. Especially projects funded via the Alpine Space Programme have gained valuable experience. ViSiBLE therefore focuses on the valorisation, i.e. dissemination and exploitation, of sustainable building and low carbon experiences in the Alpine Space and beyond and will thus contribute to improve the sustainability of the built environment in Europe.” Source: [ViSiBLE project summary](#)

Outputs

Output	Category	Language(s)	Target group	Remark
CESBA wiki	Tool	EN	Civil servants/administration; policy makers; SMEs	CESBA wiki is a joint output of the projects CEC5 , CABEE , and ViSiBLE ; already established and filled with information on the CESBA initiative, results from former projects on energy efficiency, a low-carbon economy and sustainable building, and organization profiles of partners involved in those projects.
ViSiBLE Resource Book	Best practice	EN	Organizations and persons that have been involved or want to be involved in EU-funded projects on energy efficiency, a low-carbon economy and sustainable building	ViSiBLE Resource book: This output reveals short factsheets of 50 selected outputs from 20 different EU projects that have been analysed in the ViSiBLE project.
CESBA dissemination material	Tool	EN, CZ, SK, DE, IT	Organizations that want to learn about or promote the CESBA initiative	Toolkit of dissemination material on CESBA: standard presentation, poster, leaflet, and Introduction to CESBA (dissemination strategy)
Report on EU sector relevant programmes for projects on sustainable building	Tool	EN	Organizations and people interested in applying for EU project funding	Report on EU sector relevant programmes on projects about sustainable building

Outcomes and Impacts

Unlike project outputs, outcomes and results cannot be described in a standardised way. Therefore, they are listed as free text:
