

<b>Section</b>	<b>Description</b>
<b>Resource Title</b>	Outdoor recreation activities – Demand
<b>Resource Abstract</b>	Outdoor recreation in natural and semi-natural environments plays a crucial role for physical and mental health, contributing substantially to human well-being. Mountain regions are attractive destinations for nature-based recreation and tourism due to their appealing landscapes, access to wilderness and wildlife, and opportunities for outdoor recreation activities like hiking, mountain biking, climbing, or skiing. The outdoor recreation demand refers to the demand areas within the study area quantifying local beneficiaries such as residents and tourists.
<b>Resource Type</b>	Dataset
