

Section	Description
Resource Title	Population
Resource Abstract	Population is traditionally regarded as the key indicator for the status of a municipality. When you think about it, it has many different implications. Sustainability can be affected by population, insofar as high populations usually imply stronger pressure on the surrounding environment, whereas if population numbers fall too low it can hamper development.
Resource Type	Dataset
Resource locator	http://www.alpes-webgis.eu/?X=1034392.00&Y=5825000.00&zoom=6&lang=en&focus=focus_alpes&bgLayer=alpes.osm.stamentoner.60002&layers_opacity=0.7&catalogNod es=112000000,112300000&layers=alpes.susti.10308
Unique Resource Identifier	DG85-DVBA-VMLS-X8FZ
Resource Language	eng
Topic Category	Society
Keyword value	Population distribution - demography (INSPIRE Spatial Data Theme) Human population (GEMET Concepts) Population distribution (GEMET Concepts) Demography (GEMET Concepts)
Originating controlled vocabulary	- title: GEMET - INSPIRE themes, version 1.0 - date: -dateType: publication -date: 2008-06-01 - title: GEMET - Concepts, version 4.0.1 - date: -dateType: publication -date: 2017-06-28
Geographic bounding box	West = 1.986194 East = 18.622061 North = 50.068114 South = 42.700501
Coordinate reference System	EPSG: 3035 (ETRS89, LAEA)
Temporal extent	2010-2011
Date of publication	2018-07-20
Lineage	The indicator represents the number of residents, as of 2011, of the municipalities within the Alpine Space, derived from the population censuses carried out by the national statistical offices. Data sources: AT Statistik Austria: Volkszählung (2011)

	CH Bundesamt für Statistik: Volkszählung (2011) DE Statistisches Bundesamt: Zensus 2011 FR Insee: Recensement de la population 2011 IT ISTAT: 15° Censimento generale della popolazione e delle abitazioni (2011) LI Amt für Statistik: Volkszählung (2010) SI Statistični urad Republike Slovenije: Registrski popis (2011)
Spatial resolution	100000
Specification	Commission Regulation (EU) No 1089/2010 of 23 November 2010 implementing Directive 2007/2/EC of the European Parliament and of the Council as regards interoperability of spatial data sets and services, date of publication: 2010-12-08.
Degree	Null
Conditions applying to access and use	CC BY-NC 4.0
Limitations on public access	No Limitation
