

Section	Description
Resource Title	Married Residents
Resource Abstract	The number of married persons in part reflects changes in the concept of the family. Marriage is just one of many forms of living together. Society is becoming more individualized and flexible. Sustainable social policy needs to adapt family policy measures to such developments. In many European countries the legal position of unmarried cohabitating persons has improved.
Resource Type	Dataset
Resource locator	http://www.alpes-webgis.eu/?X=1034392.00&Y=5825000.00&zoom=6&lang=en&focus=focus_alpes&bgLayer=alpes.osm.stamentoner.60002&layers_opacity=0.7&catalogNodes=112000000,112300000&layers=alpes.susti.10304
Unique Resource Identifier	H452-NSYV-Q5RL-4DJF
Resource Language	eng
Topic Category	Society
Keyword value	Population distribution - demography (INSPIRE Spatial Data Theme) human population (GEMET Concepts) social dynamics (GEMET Concepts) marital status (GEMET Concepts)
Originating controlled vocabulary	- title: GEMET - INSPIRE themes, version 1.0 - date: -dateType: publication -date: 2008-06-01 - title: GEMET - Concepts, version 4.0.1 - date: -dateType: publication -date: 2017-06-28
Geographic bounding box	West = 1.986194 East = 18.622061 North = 50.068114 South = 42.700501
Coordinate reference System	EPSG: 3035 (ETRS89, LAEA)
Temporal extent	2010-2011
Date of publication	2018-07-20
Lineage	Married Residents = (married residents/ total residents) * 100 The indicator is calculated as the percentage of married residents to the total number of residents of the municipality. Data sources:
